## **ONUnet – ONU Setup Guide for Mac**

The steps below are design to help Students, Faculty, and Staff connect to the wireless network at Olivet Nazarene University called ONU on Mac (Guests should use ONUGuest).

## To Remove ONUGuest

- 1. Click on the Airport Icon on the top of your screen.
- 2. Select "Open Network Preferences".

3. Click on Wi-Fi, then click on "Advanced".

4. Click the network you want to remove, then click the "-" button. Click "OK" afterwards.

- 3. Type in your ONUnet username and password.
- 4. Click OK.

|   | Mode:     | Automatic 🗘                         |
|---|-----------|-------------------------------------|
|   | Username: | ttiger                              |
|   | Password: | •••••                               |
|   | I         | Show password Remember this network |
| ? |           | Cancel Join                         |

5. Open a web browser and test your connection. If you have difficulty connecting, try turning AirPort off then back on or restart your computer then reconnect to ONU.
