ONUnet – ONU Setup Guide for Windows 10

The steps below are designed to help Students, Faculty, and Staff connect to the wireless network at Olivet Nazarene University called ONU on Windows 10 (Guests should use ONUGuest).

1. Click on the network icon in the taskbar

2. Click “Network settings”

3. Click “Manage Wi-Fi settings”

4. Click on the network you want to remove, then click forget. You can close out the network windows afterwards. Forget all of the following networks: ONU, Solomon, Judah, and ONUGuest
5. Right click on the network icon and click “Open Network and Sharing Center”

6. Click “Set up a new connection or network”

7. Click “Manually connect to a wireless network”
8. Enter the Network name as: “ONU” (make sure to capitalize ONU)

9. Change Security Type to “WPA2-Enterprise”

10. Encryption type should be “AES”

11. Make sure that the checkbox next to “Start this connection automatically” is checked

12. Make sure that the checkbox next to “Connect even if the network is not broadcasting” is checked

13. Click “Next”

14. Click “Change connection settings”
15. Make sure that the checkboxes next to “Connect automatically when this network is in range” and “Connect even if the network is not broadcasting its name (SSID)” are checked, then click the “Security” tab.

16. Make sure that the checkbox next to “Remember my credentials for this connection each time I’m logged on” is checked, then click the “Settings” button.

17. Uncheck the “Verify the server’s identity by validating the certificate” checkbox, then click OK.
19. Click on the “Advanced Settings” button

20. Check the “Specify authentication mode:” box

21. Choose “User Authentication”

22. Click “Save credentials”

23. Type your ONUnet username and password (do not include "@olivet.edu")
24. Click “OK” (on the “Windows Security” window)

25. Click “OK” (on the “Advanced Settings” window)
26. Click “OK” (on the “ONU Wireless Network Properties” window)

27. Click “Close” (on the “Manually Connect to a Wireless Network” window)

28. Close out of the “Network and Sharing Center” window

29. Open a Web browser (Internet Explorer, Chrome, Firefox, etc.) to make sure you are connected
