

ONUnet – ONU Setup Guide for Windows 11

The steps below are designed to help Students, Faculty, and Staff connect to the wireless network at Olivet Nazarene University called ONU on Windows 11 (Guests should use ONUGuest).

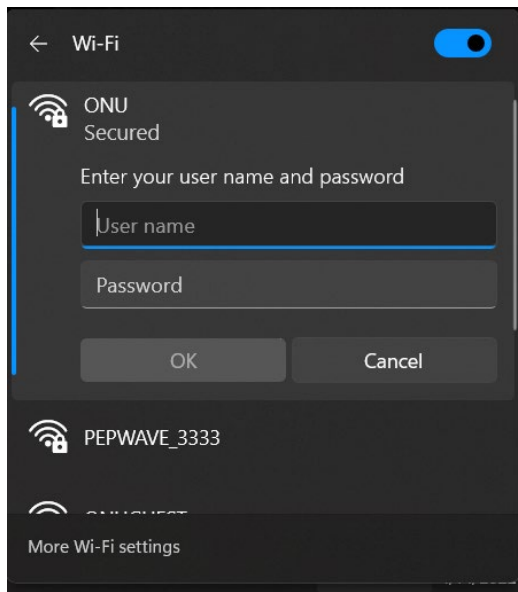

1. Click on the network icon in the task bar and click the wireless symbol.

2. Find the “ONU” network in the list and click it. Ensure “Connect automatically” is checked and click “Connect”.

3. Enter your ONUnet username (without @olivet.edu) and your ONUnet password. Click “OK” to connect.

4. If you get a “Continue Connecting..” message, click “Connect” to continue connecting to ONU

5. Open a web browser (Chrome, Edge, Firefox, etc) to verify network connectivity.

If you need further assistance, contact the IT Help Desk.
